

Invitation to

METALEX 2022: Machine Tools & Metalworking Exhibition Serving ASEAN – 36th Edition

Dear Sirs,

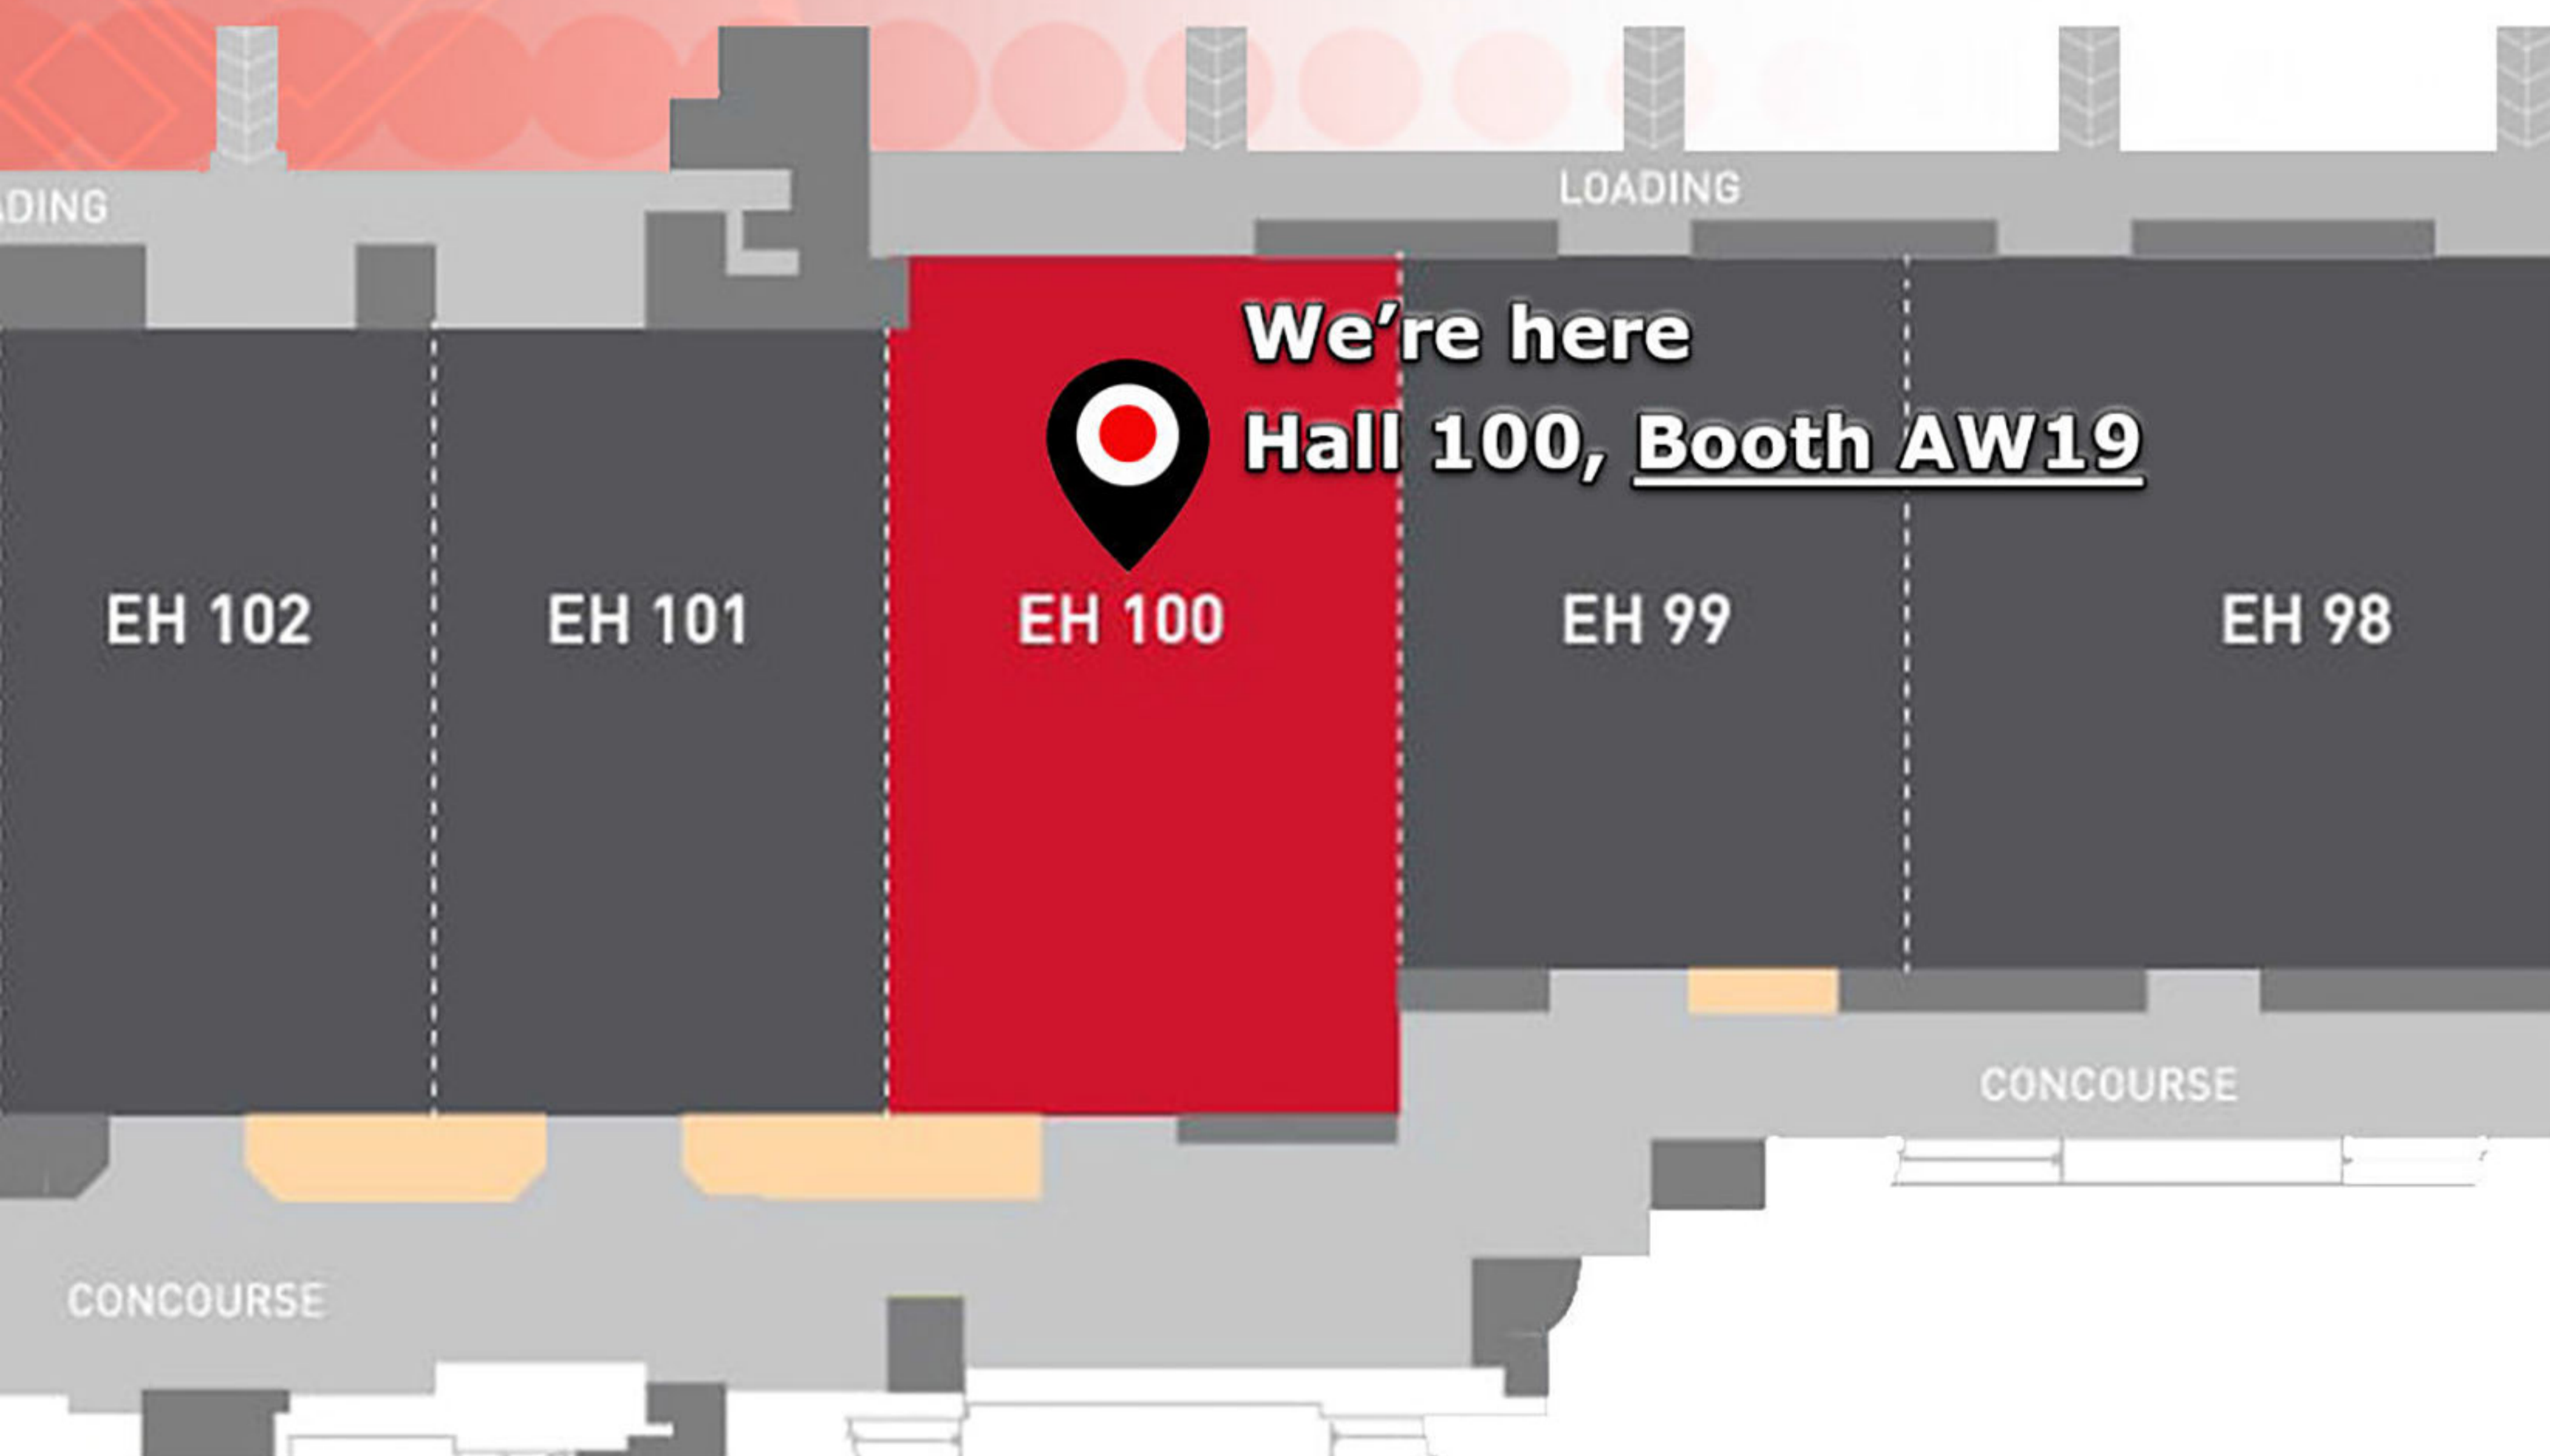

You're cordially invited to METALEX 2022 at BITEC, Bangkok from November 16th (Wed) - 19th (Sat), 2022 on 10:00 – 18:00.

Amada will present a smart manufacturing solution in using of Digital IoT. It starts from 3I CAD CAM systems until Automation system such as Fiber Laser Cutting, Press Brakes with ATC, Fiber Welding and other machines of Amada Group: Stamping Press, Cutting, Machine Tools and Precision Welding.

In the show, you will be the first to see our latest machines firstly launched in ASEAN Fiber Laser Cutting machine (LC VALSTER3015AJ G) and Handy Fiber Laser machine (FLW1500MT).

We are looking forward to welcoming you at AMADA booth at Hall 100, Booth No. AW19.

Your faithfully
AMADA (THAILAND) CO.,LTD.

AMADA VPSS3i SOFTWARE

- ✓ 4D Manufacturing by reverse Engineering and link all kind of machine and software.

NEW LC VALSTER 3015 AJ G

- ✓ LC VALSTER3015AJ G enable high speed stable processing of thin to thick material by utilizing beam-shape control technology.

HRB 1003

- ✓ HRB Series is AMADA's next-generation press brake. Easy to operate & retrofittable with hybrid drive system.

AMADA highlight Machine

1. Sheet metal engineering system [VPSS3i, My V-factory]
2. High speed fiber laser machine [LC VALSTER3015AJ G]
3. Retrofittable press brake with hybrid system [HRB1003]
4. Handy fiber laser welder [FLW1500MT]
5. Carbide circular saw [CMII75DG]
6. Automatic progressive press [SDE8018i III, LCC 03KJ3]
7. AMADA AC-Inverter spot stationary [MWA-600A] with weld checker [MM-400A]

NEW FLW 1500MT

- ✓ FLW1500MT is New Standard for Sheetmetal Welding. Enable processing of various parts with a range of auxiliary equipment.

MWA-600A MM-400A

- ✓ MWA-600A AMADA AC-Inverter spot stationary with weld checker [MM-400A] desktop resistance weld monitor.

SDE8018i III LCC 03KJ3

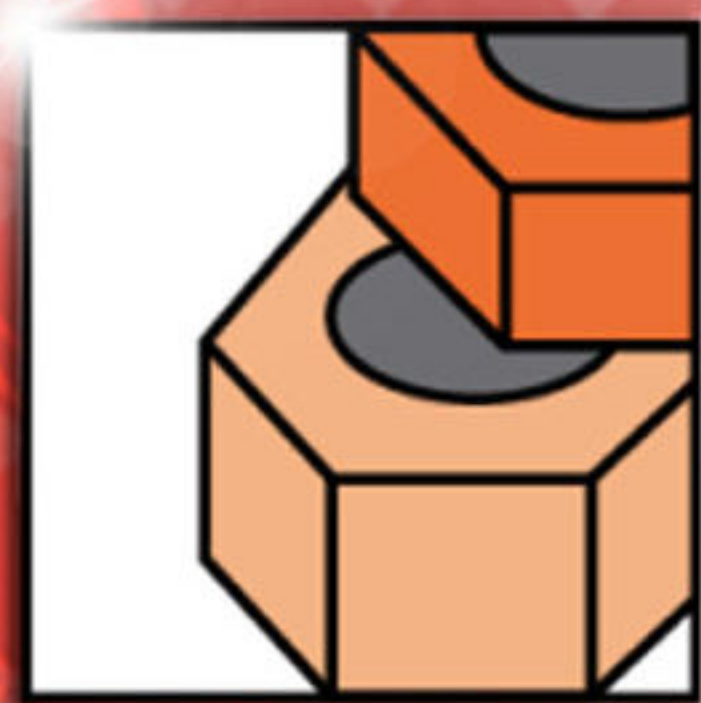

- ✓ Digital electric servo press with high-speed, high-precision roll feeder.

CMII75DG

- ✓ Carbide circular saw. New Dyna guide technology enable excellent cutting.
